What is Altamont Capital Partners?

Altamont Capital Partners (“ACP”) is a leading private equity investment firm based in Palo Alto, California. We focus on investing in change-intensive, middle-market private companies. The firm currently manages over \$1 billion in capital for a small group of the world’s most sophisticated private equity fund investors and has been growing consistently since inception.

What is the Analyst Intern Program?

The summer program runs for 10 weeks beginning in mid-June and is open to Juniors graduating in 2017. The summer begins with a dedicated training program to develop foundational analytical skills. Upon completion, analyst interns will work as a member of deal teams evaluating and executing new investments, as well as supporting existing portfolio companies. Finally, to provide valuable experience and insight into what it’s like to work in a company undergoing change, analyst interns are given a temporary dedicated assignment to actively support an ACP portfolio company management team in a consulting or operating role.

Interested applicants graduating by June 2017 should apply through the school’s career center no later than **Wednesday, January 6th**. Please include your resume with relevant test scores, cover letter, and unofficial transcripts.

We look forward to receiving your application materials. Please contact me with any questions.
