# Master of Science & Technology Policy

with one-year option

[sfis.asu.edu/mstp-welcome](https://sfis.asu.edu/mstp-welcome)

**ASU** School for the  
Future of Innovation  
in Society  
Arizona State University

The Arizona State University **School for the Future of Innovation in Society's** one-year Master of Science & Technology Policy program (MSTP) uniquely prepares our graduates to have an impact in today's technologically complex world. Drawing on some of the world's leading experts and innovative thinkers, we are training future leaders, policy makers and analysts in tackling complex issues that range from climate change, energy security and responsible innovation, to public health, global development and social justice.

The **MSTP program** is suited to anyone interested in a career where they work to ensure that science and technology serve society through responsive and effective policy development and implementation. Our students come from a very wide range of backgrounds, and go on to develop successful careers in government, business, academic institutions, and non-government organizations.

## What are the benefits?

- One-year program (full time) or two-year program (part time)
- A program that tailors learning to career goals
- Opportunities to participate in diverse, relevant research projects
- The opportunity to work with internationally renowned experts
- An intensive, immersive capstone experience in the nation's capital
- Networking with science & technology policy leaders
- Career opportunities in government, business, academic institutions, and non-government organizations

## What will you learn?

- Historical, social and institutional foundations of science & technology policy
- Critical skills and methods for policy analysis and development
- Effective policy communications skills and techniques
- Career path-specific knowledge and expertise
- Working effectively with scientists, policy makers, elected officials, and others
- Cutting edge approaches to ensuring socially responsive and responsible technology innovation

# Our Alumni

Graduates of the ASU Master of Science and Technology Policy program go on to pursue a variety of careers. For example:

## **Natalie DeGraaf**

Graduated: August 2011

Currently: Public Health Analyst and Advisor, Division of Select Agents and Toxins, Office of Public Health Preparedness and Response - Centers for Disease Control and Prevention

## **Kevin Margeson**

Graduated: May 2012

Currently: Aerospace Program Management and Supply Chain Leader, Arizona State University

## **Alaina George**

Graduated: December 2012

Currently: PhD Student, Human and Social Dimensions of Science and Technology - Arizona State University; Tele-Education Coordinator - Indian Health Services, NM

## **Jeffrey Jennings**

Graduated: May 2014

Currently: Sustainability Project Coordinator - Arizona Public Service (APS)

## **Melissa Cannon**

Graduated: December 2014

Currently: Program Coordinator - NASA- Goddard Space Flight Center, Universities Space Research Association

## **Anthony Gryniewicz**

Graduated: August 2015

Currently: Energy Policy Advisor at the US Department of Energy

## **Jordan Hibbs**

Graduated: August 2015

Currently: Presidential Management Fellow at the U.S. Department of Energy, Building Technologies Office in Washington, D.C.

## **Nathanael McIntyre**

Graduated: August 2015

Currently: Advisor for Industry Affairs and Outreach at the Federal Aviation Administration

## **Neekta Hamidi**

Graduated: December 2015

Currently: Healthcare Consultant - Watson Health at IBM

## **Brandon Riddle**

Graduated: August 2016

Currently: Project Management Specialist – Boeing Space Launch Systems
