FEbruary Externship

Are you a sophomore or junior interested in economics, finance, statistics, or marketing? Would you like to apply your research skills, perform rigorous analyses, and collaborate with leading professors and industry experts on complex, high-stakes litigation? Then economic consulting might be the field for you.

Cornerstone Research is hosting a one-day externship in our Boston office on February 23rd, 2018. The externship provides students the opportunity to learn more about the industry, our firm, and the Analyst position.

Please note: this will be a full-day event from 9:30 AM to 5 PM on February 23rd, 2018.

Qualifications

The Externship is open to current sophomores and juniors.

How to Apply

We will be accepting applications through February 5th, 2018.

Please submit a résumé, a copy of your unofficial transcript, and a cover letter via your Career Center.

About Cornerstone Research

Cornerstone Research is a leading economic and financial consulting firm specializing in the analysis of complex economic, financial, accounting, and marketing issues that arise in the context of various kinds of litigation. For example, we may be asked to predict the effect of a merger of two major high-tech firms on prices and innovation, or to determine the effect of unfavorable drug test results on the stock price of a leading pharmaceutical company, or to value a patent on smartphone technology that might have been infringed.

The Analyst Experience

Analysts play a central role at Cornerstone Research. They work in case teams that vary in size and typically include an academic or industry expert, senior consultants, and multiple analysts. Within a case team, analysts make important contributions during all phases of the project—from developing case strategy and conducting analyses to preparing experts for testimony. Analysts are exposed to numerous types of cases across a spectrum of industries.

Analysts are well prepared for a range of opportunities during their time at Cornerstone Research. Approximately three-quarters of Cornerstone Research analysts choose to pursue advanced degrees—most often MBAs, JDs, and PhDs at top graduate programs such as Harvard Business School, Stanford Law School, and the University of Chicago. In addition, many Cornerstone Research analysts proceed directly to careers in technology, business, finance, research, consulting or nonprofit work.
