Graders Needed for Course at Harvard Extension School

The Extension School is looking for graders for the course Mgmt E-2000, Principles of Finance.

A junior or senior economics concentrator who has taken 1723 or 1745 would be ideal, although sophomores and applicants from other concentrations will certainly be considered as long as the applicant has taken Ec 10.

The position will pay around $1,500 for the semester, and will involve a time commitment of around 5-10 hours per week.

If interested, please send an email to the course professor, Bruce Watson, at bwatson@fas.harvard.edu. Give a little bit of your background, the econ courses that you have taken/are taking, how you have done in them, etc. Also indicate if you have done grading before (e.g. Unit Test Grader for Ec10).

Replies as soon as possible would be appreciated.
